Conjunctive Normal Form: $F = F_1 \wedge F_2 \wedge ... \wedge F_n$ where $F_i = F_{i1} \vee F_{i2} \vee ... \vee F_{ik}$ (disjunction of atoms). Disjunctive Normal Form: $F = F_1 \vee F_2 \vee ... \vee F_n$ where $F_i = F_{i1} \wedge F_{i2} \wedge ... \wedge F_{ik}$ (conjunction of atoms).
